

Policy:	Environment Policy Statement	Reference:	EPSSSES0022
		Review Date:	05/2023

SES Engineering (Newark) Ltd recognises that environmental issues are of fundamental importance, both in their own right and as part of a successful and responsible business strategy. Therefore, we as a company are committed to ensuring that the environmental impact of our operations will be minimised by preserving, protecting and improving the environment, and by the prevention of pollution.

The Managing Directors (Phillip Roberts and Max Shelbourn) are ultimately responsible and accountable for SES Engineering (Newark) Ltd's environmental performance, with responsibility for implementation being delegated through line management. We will ensure that the necessary resources are made available to achieve successful environmental management throughout the business.

SES Engineering (Newark) Ltd will undertake a full analysis of its environmental aspects and impacts, in order to develop a comprehensive environmental management system. This system will then be used to ensure, as a minimum, the legal requirements are met, along with industry best practice and the companies own standards. In addition, the analysis will also allow the setting of specific targets and objectives in order to ensure ongoing continuous improvement.

SES Engineering (Newark) Ltd will ensure that environmental considerations are taken into account throughout its sphere of operations, and in doing so expects the full co-operation and commitment of its employees, sub-contractors and suppliers in meeting the requirements of this policy.

SES Engineering (Newark) Ltd will undertake a complete formal review of the environmental management system annually. This annual review will include for the measurement of progress against set targets and objectives.

A copy of this Environmental Policy Statement, and all subsequent revisions, will be available for all interested parties.
